

Amendments to the Specification:

Please add the following title after the paragraph ending on page 1, line 6:

FIELD OF THE INVENTION

Please add the following title after the paragraph ending on page 2, line 6:

BACKGROUND OF THE INVENTION

Please add the following titles and new paragraph after the paragraph ending on page 6, line 25:

BRIEF DESCRIPTION OF THE FIGURES

Figure 1 sets forth the location of the aligned regions for the reconstructed genomic RNA and four clones. The chromosome to which each clone belongs is indicated in square brackets. Percentage similarity to the reconstructed genomic RNA is also indicated, as well as the presence or absence of repeat sequences, and the size of the longest open reading frame.

Figure 2 sets forth the nucleotide sequence of clone C12 (SEQ ID NO: 1) and the corresponding potential amino acid reading frames (SEQ ID NOS: 34-36).

DETAILED DESCRIPTION OF THE INVENTION

At the end of the application, please replace the current Sequence Listing with the attached Sequence Listing.
